Watkins' Pain-Oleum

Is a very expensive medicine to manufacture, and contains numerous valuable ingredients, which combine into one harmonious whole. One of these ingredients is good for one class of pains, and others for other complaints, yet they are so combined as not to conflict with each other. Being harmless when used according to directions, it may safely be employed for a large number of aches and pains not specifically mentioned, when it happens to be the only one of Watkins' Remedies in the hands of the customer. By reading this wrapper carefully, you will see that we have special remedies for special diseases, and where such are required, we urge you to give our agent the opportunity of supplying you.

THE average dose of Watkins' Pain-Oleum for grown people is one-half to one teaspoonful in warm, sweetened water. For children, the dose is from five to twenty drops, according to the age and condition of patient. In observing the following directions, you should see that the proper dose is given in each case.

Bruises: Rub the affected parts thoroughly with Watkins' Pain-Oleum, for several minutes, and then wrap with dry flannel cloths.

Burns: Saturate a flannel cloth with Watkins' Pain-Oleum, and apply to burnt parts freely.

Chilblains; or Frost Bites: Use Watkins' Pain-Oleum the same as for bruises.

Cholera and Cholera Morbus: Give a dose every half hour. Bind up the stomach with a hot flannel cloth saturated with Watkins' Pain-Oleum. Bathe the feet in water as hot as patient can stand, mixed with some salt or ashes.

Colic: Give a dose every half hour until relieved.

Diarrhoea: Give a dose every one to three hours.

Dysentery: Give a dose every one to three hours.

Dyspepsia: Take a dose about an hour after each meal.

Flatulency: (Wind on the stomach or bowels.) One dose after meals.

Laryngitis: (Disease of air passages of the throat.) Give a dose every three hours, also rub on the outside of the neck and apply hot cloths.

Pains: Most people appreciate a remedy that will give prompt relief to pains in the bowels and stomach. Some slight derangement of these organs often causes intense suffering, when there is relief nothing very serious is the matter with the patient. To have a medicine at hand that will act promptly and effectively in cases of this kind will be appreciated by thousands of customers, new and old. For internal pains, we recommend a dose of Watkins' Pain-Oleum every hour until relieved. For external pains, apply freely to the affected parts, rubbing Watkins' Pain-Oleum in gently with the hand.

Rheumatism and Rheumatic Pains: Take a dose before meals and on going to bed. Also rub Watkins' Pain-Oleum on the parts affected, and bind up with a soft flannel cloth, soaked with the liquid.

Sprains: Treat with Watkins' Pain-Oleum, the same as bruises.

Toothache: For internal use, saturate a piece of cotton with Watkins' Pain-Oleum, and place in the hollow aching tooth. For external use, bind up the jaw with a soft flannel cloth, saturated in Watkins' Pain-Oleum.

Trusting that you will find Watkins' Pain-Oleum a valuable addition to your medicine chest for many common ailments and complaints, and thanking you for your continued patronage, we are, very respectfully,

The J. R. Watkins Medical Co.

Watkins' Kidney Tablets

THE GREAT REMEDY FOR

Diseases of the Kidneys, Catarrh or Inflammation of the Bladder, Gravel, Discolored or Scalding Urine, Incontinence or Retention of Urine, Pain in the Back, Diabetes, etc., etc. . . .

The name of "Watkins" needs no apology to the American public when used in connection with medicine. It stands for all that is best, highest and purest in quality. The Watkins' Remedies have been before the American public for over thirty-two years, and are the recognized standard of excellence everywhere. Therefore we confidently offer **Watkins' Kidney Tablets** to the public as a remedy for Kidney Complaints and diseases arising from disordered kidneys and bladder. While it would be foolish for us to guarantee to cure every case, it is a fact that **Watkins' Kidney Tablets** combine the best known remedies for Kidney Complaints with which the medical profession is acquainted, and we feel confident that when used according to directions they will relieve the vast majority of cases.

Watkins' Kidney Tablets are compounded from the best and purest drugs obtainable. Put up in glass screw capped bottles, they will hold their strength and virtue indefinitely. Do not be deceived with dangerous imitations. We are the only one that we know of that ever gave any such a course of treatment for the money. Think of it! over a month's treatment for 50 cents! If you were taking treatment from a doctor think what it would cost, and the chances are that his treatment would not be nearly as good as ours. Kidney Complaints are not cured in a day. It takes time. Our treatment costs the least and is the best thing we know of.

DIRECTIONS.

If your back aches from any internal cause, it is a sign that you need **Watkins' Kidney Tablets**. Backache is a sign of some trouble in the kidneys.

DOSE: Take one tablet before or after meals, swallowing it whole, without allowing it to dissolve in the mouth. In severe cases Disordered Kidneys, Pain in the Back, Catarrh or Inflammation of the Bladder, Gravel, Diabetes, Incontinence or Retention of the Urine, Discolored or Scalding Urine, Sediment in Urine, or Inflammation of the mucous membrane of the Genito-urinary Tract, take two of **Watkins' Kidney Tablets** before or after meals.

Watkins' Kidney Tablets are not cathartic, that is, they do not act on the bowels. It is highly essential to keep the bowels in perfect working order, and for this purpose we would recommend Watkins' Sarsaparilla, taken in good sized doses, or those very popular cathartic remedies, Watkins' Root and Herb Tea and Watkins' Little Liver Pills, all of which may be had on most reasonable terms from our agents.
